

Clark Howe (MD)

This month's newsletter is a combined December and January edition. Apologies for the brevity; normal service will resume in 2026.

Holiday Closing Period

We will close at 4:00 PM on Monday, 22nd December and reopen at 8:00 AM on Friday, 2nd January 2026.

To ensure you have stock while we're closed, we recommend placing orders in advance. As always, we are happy to accept returns of excess standard stock in the new year (excluding special order or logoed items).

For urgent enquiries during the shutdown, please call 07809 516659 and we will assist if possible.

As 2025 draws to a close, we want to take a moment to express our deepest gratitude for the trust you have placed in us to supply your PPE, workwear, and cleaning essentials throughout the year.

We are acutely aware that this year has presented significant challenges for many businesses and individuals. The fact that you chose to rely on us for your critical needs has been both a privilege and a responsibility we have never taken lightly. Our commitment has been, and always will be, to support your operations and safety, especially when times are tough.

Please know that as we move into 2026, we are here to continue that support. We are dedicated to being a reliable partner you can count on, and we are already working hard to ensure we can help you navigate the year ahead with confidence.

From all of us here, we wish you and your teams a peaceful, happy, and restful holiday season. May this Christmas and New Year period bring you moments of joy, relaxation, and well-deserved celebration.

Thank you for being part of our story. We look forward to serving you in the coming year.

Clark and the Howsafe Team

NEWS

Dec 25/Jan 26

Strategic Choice

Your solution to cold legs - the Regatta Strategic Softshell Trouser is the ultimate work trouser for the colder months.

Packed with features such as the warm backed woven shell material, Cordura fabric kneepad pockets, holster pockets and lots of additional storage, they really are a stand out product.

Available in 30-40" waist in regular leg only.

Full Circle

COFRA is advancing its commitment to environmental stewardship by achieving a major milestone in production waste recycling. Through a significant investment in innovative, cutting-edge machinery - some of the most advanced in Europe - they can now recycle 100% of their sole production waste back into the

manufacturing process. This fully operational system has completely eliminated the need to dispose of any residual materials as waste.

Zero Waste

Thank you - Litter Warrior

If you drive around Peterborough regularly, you've likely seen a familiar face with a bin bag and litter picker in hand.

That's Mark Fishpool, who founded the Pride in Our Community Association four years ago. Since then, he has dedicated countless hours to cleaning our streets, alongside other fantastic volunteers groups like the Litter Wombles.

We see Mark out in all weathers, tirelessly working to make Peterborough a better place to live. His energy and enthusiasm are truly inspirational.

We were delighted to support his efforts by providing free hi-vis clothing to help keep him safe while he volunteers. Thank you, Mark

First Aid Station

An all in one First Aid Station flight case, complete with a functioning tap & sink, towel dispenser, sliding drawers, cupboard compartment, light, and mirror, ensuring you have everything you need in any emergency situation.

The case can be fitted to a water supply through a compartment in the rear of the case, creating a functional tap sink with running water. The sink is fitted into a worktop area, giving ample workspace when carrying out first aid. Below the worktop is a hinged door that gives access to the area beneath the sink, functioning as an ideal storage space.

To the right of this are five sliding doors of various heights, all labelled with a yellow engraved plastic badge to clearly indicate the contents of each drawer, ensuring equipment is accessible quickly in any emergency situation. The text on the engraved badges can be tailored to your requirements, just input the text you require at checkout in the "Additional Information" field on our website. If you do not input any text, we will keep the text as pictured.

Above the worktop is a 600mm x 450mm mirror, and light switch for the light fitted above the mirror. At the very top of the case, the words FIRST AID STATION are engraved into the laminate. While the case looks best in our green rofor laminate, you can choose any of our standard colours should you wish to have a first aid station case that aligns with your company colours. Allow 7-10 working days for delivery.

- 9mm Plywood Construction
- 4 Locking Castors
- Mirror & Sink
- Lighting
- 2 Handles to each side of the case
- 5 Sliding drawers with handle
- 1 Cupboard for storage
