

Clark Howe (MD)

Our commitment to bringing you fresh and exciting product ranges is stronger than ever. We're far from finished, with many more innovative offerings in the pipeline!

The recent launch of U-Power's safety footwear and clothing has been one of our most successful to date - and it's no surprise why.

On the right, you'll notice our new range of hi-vis clothing by Pulsar. This is not your average workwear - Pulsar's products truly need to be seen and touched to appreciate the leap in features and performance they offer over the majority of products on the market.

Our team is equipped with samples and some stock is on the shelf so please make contact with us.

I trust you had a wonderful time celebrating the King's Coronation. If not your cup of tea, I hope you at least managed an extra day off to relax with your family.

As always, I want to express our gratitude for your business. You're more than just a customer to us. We hope that the month of June brings you nothing but good things. Thank you!

Mobile Handcare Cradle

50% OFF
above price

We have a number of these at a very, very, very low price, purely because the sanitiser within has an expiry date of 04/24 so plenty of life. Price applies to existing stock at Howsafe only.

There has never been a better time to get your vans kitted out with hand care facilities.

NEWS

June 2023

The latest updates from one of the UK's leading independent, family-run suppliers

Step into the future of safety with Pulsar! This isn't your run-of-the-mill safety gear - this is PPE and high-visibility clothing taken to new heights. Made to meet the tough demands of every industry, Pulsar offers safety and comfort that's light years ahead.

We're not talking about off-the-rack safety wear here. Pulsar doesn't play the price game. Instead, they dive deep into the needs of the end user and the hazards lurking in your workplace, and they craft gear to handle that. No cutting corners, no compromises.

It's all in the details - each Pulsar garment is packed with additional features that elevate them from ordinary workwear. You'll find elements of enhanced comfort, convenience, and safety stitched into every product. The more you explore, the more impressive details you'll discover.

Got a diverse team? Pulsar has you covered. They offer an extensive size range from X-Small to a whopping 7XL in many of their garments, so you can be confident that every member of your team is well taken care of.

Pulsar isn't just about top-tier workwear, they're also champions of sustainability. Many of their products are made from recycled materials, and they're continually innovating to improve packaging and tagging options.

As a partner, Howsafe is proud to stock a selection of Pulsar's key products. But remember, Pulsar's range is vast - If you can't find what you're looking for, don't hesitate to ask for a full brochure or visit the Pulsar website for a deeper dive into their impressive line-up.

At Howsafe, we're thrilled to partner with Pulsar. We look forward to working together to bring you the future of hi-vis clothing!

PULSAR®

High Performance Apparel

NEC H&S Expo

We were thrilled to see so many of our valued suppliers at the Health & Safety Show at the NEC this past April.

Industry leaders such as U-Power, Portwest, Beeswift, Safety Knife, SC Johnson, Moldex, Tranemo, and Skechers were all present, showcasing their latest innovations.

Though the show has undeniably changed due to the impact of the COVID-19 pandemic and has been incorporated into other events, such as fire safety and security expos, it still remains a pivotal gathering in our industry.

Interestingly there was little to no presence from our big national competitors.
