

Clark Howe (MD)

More new products have been introduced over the last few weeks and during that time I have concentrated my efforts on our tradesperson workwear ranges.

I am pleased to be able to offer two new kneepad trousers that are much more reasonably priced (see overleaf).

I struggle with some of the price points of the higher end workwear trousers - our first foray into the premium Scandinavian workwear resulted in trades trousers that we could offer from anywhere between £40 to £60. Wind the clock forwards 17 years and the premium products are often well north of £100.

So, to try to counteract the words "how much" when told the price we have dropped a couple of the high-end options and bolstered the middle ground products - they still feature the bells and whistles you need but at a much more sensible price, whilst retaining the "fit for purpose" properties you expect.

Both priced under £50 plus VAT.

Stock is in so please let us know if you would like to see samples and discuss contract pricing for your trades staff, maintenance teams or engineers.

In other news, one of the first major local community events for 2022 has now been announced.

The Yaxley Festival takes place from the 13th to the 15th of May.

Daytime entertainment, from dog shows & Maypole dancing through to live wrestling - once the sun goes down the large centre stage comes to life, where a selection of top acts grab the mic to entertain the crowds.

It's a great weekend for kids and adults and even better than that, it is totally free of charge to enter.

So please save the date to see what it is all about.

NEWS

March 2022

The latest updates from one of the UK's leading independent, family-run suppliers

Good news!

£4.50 plus VAT

It has been a very long while since we could offer blue medical grade disposable nitrile gloves for under a fiver - these gloves were made for the NHS, who now have excess stock - for a limited time we can offer these at an exceptionally low price.

Please note this is on a first come, first served basis, and once gone, further stocks may not be available, so please get in early to secure stock.

Keeping contained!

Container availability continues to be a huge problem for any manufacturer trying to move around their goods. Unsurprisingly the people winning from the situation are the container manufacturers and carriers who can pretty much charge what they like - at least someone is doing ok out of the situation.

For everyone else it is delays and sky-high transport costs.

Lovely Glovely

Now sourced from an alternative supplier our ever popular cow hide glove benefits from an upgrade to its specification.

Warm felt lining for snug comfortable fit. Traditional, tough, hardwearing glove which is ideal for both indoor and outdoor use.

Yaxley Festival

As irreverent as it is inspirational, the endearingly eclectic Yaxley Festival returns in 2022 from the 13th to the 15th of May. This massive FREE party is one of the UK's most exciting goodwill-powered family entertainment events and it just keeps getting bigger.

Howsafe have supported the event right from its inception, not just financially or by supplying products - but also by being involved. Over the years we have helped organise a community marquee, taken photos to help promote & record the event and even helped with crowd barriers and clearing up the mess at the end of the event.

YaxFest something for everyone!

YAXFEST 13-15 MAY 2022

APACHE
INDUSTRIAL WORKWEAR

SLIM FIT
360°
FLEXFABRIC

Another new addition to our already comprehensive offering of tradesperson trousers - Called the "Manchester" and priced under £50 plus VAT.

The main fabric is lightweight and comfortable while the design is simple yet functional. A reflective piping is used to add safety when working in low light ensuring the user stays as safe as possible.

The poly/cotton fabric offers high comfort levels and great stretch.

Introducing our new slim fit holster trouser with 360-degree stretch fabric throughout - Called the "Bancroft" and priced under £50 plus VAT.

The stretch panels can be found in the knee pad pockets, the gusset, the rear and in our new FlexTech waistband giving you additional areas of movement. Fashion fit slimmer leg fit. Shaped holster pockets. Twin velcro tool holder. Cordura reinforced hem and pockets. YKK zipper. A trouser fully engineered for the worker.
